Re: Acceptance of Amended Notice of Intention, Small Mining Operations, Ultradent Products, Ultradent OC Mine, S/045/057, Tooele County, Utah

Dear Mr. Chatwin:

Thank you for your Notice of Intention to Commence Small Mining Operations for your Ultradent OC Mine. The notice received September 21, 2001, **is considered an amendment to your existing small mining permit.** The amendment to expand your operations onto state lands, SE1/4 SW1/4 of Section 32, SLBM, Tooele County, with a total of two acres, is considered complete and no additional information is required by the Division at this time. You may commence with your amended plan as outlined provided you have received written acceptance from the School and Institutional Trust Lands Administration.

Please be advised that you are bound by the same "Operation and Reclamation Practices", as outlined in your original notice and summarized on pages 3 & 4 of the notice. Please give special consideration to item #10 of the "Operation and Reclamation Practices." Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Also, please mark the boundary on the ground with metal t-posts or some other marker of equal effectiveness so you will not expand beyond the permitted area. The posts need to be placed so they can be seen with the naked eye in either direction.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements. Large mining notices typically take from six to twelve months before receiving approval.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your continued mining operations.

Sincerely,

A handwritten signature in cursive script that reads "Tom Munson".

Tom Munson
